Executive Summary

The global healthcare accreditation market is valued at \$4.2 billion in 2026 and is projected to reach \$6.8 billion by 2031, growing at a CAGR of 10.1%. In the Middle East region, healthcare accreditation is experiencing unprecedented growth driven by government mandates, medical tourism initiatives, and insurance requirements. JCI (Joint Commission International) remains the dominant standard with 68% market share, followed by ISO 15189 for medical laboratories (18%) and national accreditation programs (14%). Saudi Arabia and UAE account for 52% of all accredited healthcare facilities in the GCC, while Jordan has emerged as a regional hub with 47 internationally accredited healthcare institutions.

Market Segmentation

By Standard: JCI Accreditation (68%), ISO 15189 Medical Labs (18%), CBAHI Saudi Standards (8%), Other National Standards (6%)

By Facility Type: Hospitals & Medical Centers (45%), Diagnostic Laboratories (28%), Primary Care Clinics (15%), Long-term Care (7%), Others (5%)

By Geography: GCC Countries (58%), Levant Region (22%), North Africa (15%), Others (5%)

By Service Type: Initial Accreditation (55%), Re-accreditation (30%), Consultancy Services (15%)

Jordan Healthcare Ecosystem

Jordan has positioned itself as the leading medical tourism destination in the Levant region, attracting over 250,000 medical tourists annually from Iraq, Libya, Yemen, Sudan, and Palestine. The country's healthcare system includes 106 hospitals (32 private, 31 public, 43 MOH), 2,400 primary healthcare centers, and 350+ specialized diagnostic laboratories. The Jordanian Healthcare Accreditation Council (JHAC) was established in 2017 and currently accredits 89 facilities to national standards, with 47 holding international JCI accreditation.

Opportunities & Recommendations

1. Accreditation Consulting: High demand for pre-assessment consulting, gap analysis, and implementation support. Average project value: \$45,000-\$120,000 for hospital accreditation.

2. Training Programs: ISO 15189 lead assessor training and JCI survey readiness programs showing 28% annual growth in enrollments.

3. Digital Health Integration: HIMSS EMRAM adoption creates need for integrated accreditation-digital

transformation consulting.

4. New Market Entry: Iraq and Libya represent untapped markets with 340+ hospitals seeking international accreditation.
